### International Conference of Energy Sector

*Gummersbach, 09.05.2019* Steinmüller Engineering was pleased to welcome numerous international guests. On 09.05.2019 well-known representatives of industry and energy sector met in the premises of 2T-Events in Lindlar, to inform themselves about the latest developments of the company and advanced technologies.

With the one-day conference, the organizer initiated an international information exchange with the energy sector. Raoul Halding-Hoppenheit the first deputy mayor and treasurer of the city of Gummersbach was the guest speaker at the opening event. Experts from industry and energy supply provided an intensive exchange of experience, namely, Andreas Geier of Großkraftwerke Mannheim, Sylvio Sauer of Uniper power plants GmbH, Dr. med. Thomas Bauer from the German Aerospace Center e.V. and Rainer Hesse from RWE Power AG.

Toshihiko Awano and Tetsuya Iwasaki of the parent company IHI Corporation, Tokyo were present as members of the Control Board.

Steinmüller Engineering sees itself as a "bridge builder" in overcoming the energy transition in order to significantly reduce emissions.

The conference provided an opportunity to learn about the latest technological developments and current trends. The company's customers include national and international power plant operators and leading energy and technology companies.

For the first time in the context of the conference, the Steinmüller Engineering awarded doctoral and master theses in cooperation with the Technical University Cologne, Campus Gummersbach.

The event reached its´ culinary and entertaining climax in the brewery of the 2T events, accompanied by the master brewer Dave Neuhäuser, who introduced specialties of „Bergisch beers“.
